About INZISOFT

- A Software Development Company Founded in 1999
- Headquartered in Seoul, South Korea
- Mainly Developing Pattern Recognition And Image Processing Software
- Major Customers: Financial Institutes, Government Agents, IT Solutions, Manufacturers(Scanner, Multi-Functional Mach, Cellular)...
- www.inzisoft.com

Research & Development Area

Image Processing

- Image Analysis
- Document Structure Analysis
- OCR, ICR and Barcode Reader

Image Security

- Image Watermark
- Verifying Forgery and Manipulation

Mobile(Embedded)

- Image Processing for Digital Camera
- OCR and Barcode Reader

On-Line Handwriting Recognition

- Paperless Solution
- Signature Verification

About OCR

OCR(Optical Character Reader/Recognition)
: Converts document image for text data

Image Processing,
Document Analysis,
Recognition,
Post-Processing

Text Data

General Framework of OCR System

Image Processing
Document Analysis
Recognition
Post-Processing

About OCR

OCR(Optical Character Reader/Recognition)
: Coverts document image for text data

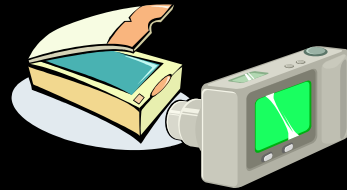

Image Processing,
Document Analysis,
Recognition,
Post-Processing
